Music, technology, travel, design, plants, true crime podcasts

EXPERIENCE

UX/UI Designer

04.2024 – present

ALDI Tech Hub

I'm driving UX/UI discovery and usability testing for pilot loyalty program. Designing and maintaining designs within the design system. Continuously optimizing the mobile app and newsletters (as Design Lead) for seven markets.

UX/UI Designer

10.2021 – 04.2024

Accenture

I was creating designs for national railway provider. I was a part of entire UX process from discovery phase, doing research, developing wireframes and prototypes, and delivering high-quality UI designs. Mainly working based on the internal Design System.

Academic Mentor

10.2022 – 07.2023

AGH University of Science and Technology

I mentored 8 students by guiding them in a project to support individuals with autism in the IT industry. I was providing support throughout design process phases including user research, UX design, prototyping, and usability testing ensuring that the project met the business requirements.

UX/UI Designer

04.2020 – 10.2021

ELTE GPS Group

I was a part of complex mobility project for a polish public transport provider. Collaborating closely with a cross-functional team, I focused on creating visual and motion designs for multiple platforms.

EDUCATION

AGH University of Science and Technology
